

School of Social Ecology

Information on Minors

Minors offered:

Minor in Criminology, Law and Society (CLS) Minor in Urban & Regional Planning (URP)
Minor in Environmental Design (ED) Minor in Epidemiology and Public Health (EPH)
Minor in Psychology and Social Behavior (PSB)

Requirements:

Minors in CLS and PSB require the three Social Ecology introductory courses (Environ E8, Crm/Law C7, and Psy Beh P9) in addition to specific upper-division courses. ED, EPH and URP have specific requirements. See the "Minor Requirements Checksheet" on the reverse of this flyer for requirements for all five minors.

Certification of Minor:

Minor Certification is performed upon completion of the undergraduate degree and is conferred by the department (school) in which the student is completing a major. Social Ecology will only certify minors for students who are currently majoring within the School of Social Ecology or the Program in Public Health. Please see your Undergraduate Counseling Office about questions concerning approved or acceptable courses for the minor, aside from the listed courses.

Minors are not able to enroll in upper-division Social Ecology courses with the "L" or "N" restriction via WebReg. If classes are not full during the adjustment window, the major restrictions are typically lifted. Also, non-majors may attend class the first day to attempt to enroll via Web Reg or by using an ADD/DROP card.

Note:

- Upper-division courses that are used to complete any major requirements **within** the School of Social Ecology **MAY NOT** be applied to either the PSB or CLS minor requirements.
- A **maximum of three courses** may be counted toward both the *minor* in ED and the *majors* in EAD or SE (Gen).
- A **maximum of three courses** may be counted toward both the *minor* in EPH and the *majors* in AE, EAD, Public Health Policy, Public Health Sciences, PSB, or SE.
- A **maximum of three courses** may be counted toward both the *minor* in URP and the *major* in either EAD or in SE.
